Zhonghao,
----- Original Message -----

Alan,

(1) Of course, I have all. I wrote some notes on your table, but I would like to show its original feature. Could you please **send me your original table without the circle and new words?** (2) I also hope you to show **the whole process of how you calculate those scores by excel** to me and all my friends who are doctors, so we will be able to check them to see if you made serious mistakes. **Can do do this ?**

I am sorry but I have no idea what you mean "without the circle and new words."

I can't show you how to calculate the scores in excel. I did my computations in a C program I wrote. The computation is straight-forward based on the equations in the paper.

(3) On 10/30/06, I replied you, "I would like to have" **your SRL paper**, but you have not done it.

Zhonghao,

I have gone through all of the notes I received from you on 10/30/06 but I can find no reference to your requesting a copy of the SRL paper. But maybe it's there and I can't see it. In any case the paper is attached. Please note that this is as submitted. I don't have an electronic copy of what appeared in SRL although I recall there were not many changes.

Regards,

Alan

I sent you the only table I have and it has no green circles.
